

The Verify Hygiene Compliance System:

- Enables 24/7 monitoring at the community level.
- Seamlessly converts real-time data into actionable, usable information.
- Provides continuous feedback to the healthcare team.
- Can be customized to monitor a specific floor, unit or room.
- Cost effective replacement to “Secret Shopper” compliance monitoring.
- 24/7 feed back on hand hygiene compliance rates with no re-direction of labor.
- Completely wireless installation
- Battery Operated
- Utilizes existing wireless networks
- Attaches to all brands of dispensers and delivery enclosures.
- Installs in minutes, no room down-time
